The MAILING DATE of this communication appears on the cover sheet with the correspondence address Period for Reply						
A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.  - Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.  - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.  - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).  Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

#### **DETAILED ACTION**

#### Election/Restrictions

1. Claims 5 and 13-20 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 3/9/06.

## Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- 2. Claims 1-4, 6-9 and 11-12 are rejected under 35 U.S.C. 102(b) as being anticipated by US Patent No. 5,139,504 to Zelman.

Zelman discloses an instrument used for eye surgery that includes a gripping portion (10), small diameter instrument portion (14) and support member (40). The support member (40) includes a strut connected to a cylinder, as most clearly shown in Figure 3. Zelman states that the support is moveable relative to the instrument portion and has a control portion (44) (column 7, lines 25 to column 8). Zelman states that the lumen of the instrument (14) has a diameter of 03.mm-0.4mm (column 6, lines 46-48). Therefore, the outer diameter of the instrument (14) would be equivalent to 25 gauge. The cylindrical portion of the support member would then have a size of about 20 gauge. Zelman fails to state that the support member (40) is made of stainless steel, but this is a common material used to manufacture surgical instruments.

### Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

- (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.
- 3. Claim 10 is rejected under 35 U.S.C. 103(a) as being unpatentable over Zelman.

Zelman simply fails to state that the support member (40) is made of stainless steel. Stainless steel is a common material for manufacturing various surgical instruments, because is well known in the art for its superior material properties. It is highly biocompatible, easily sterilized, and has good mechanical strength. Therefore, it would be obvious to form the Zelman support member from stainless steel.

### Response to Arguments

4. Applicant's arguments filed 4/18/05, with respect to the rejection(s) of claim(s) 1-20 under Shock have been fully considered and are persuasive. Therefore, the rejection has been withdrawn. However, upon further consideration, a new ground(s) of rejection is made in view of Zelman.

#### Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Sarah K. Webb whose telephone number is (571) 272-4706. The examiner can normally be reached on Mon-Fri 8-4:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Anhtuan T. Nguyen can be reached on (571) 272-4963. The fax phone
